PART B – EXPLANATORY NOTES PURSUANT TO CHAPTER 9, APPENDIX 9B OF THE LISTING REQUIREMENTS (CONT'D)**B3. PROSPECTS OF THE GROUP**

Malaysia's growth is expected to remain resilient in 2026. Domestic demand will remain the main driver of growth, supported by steady private sector spending. Labour market conditions are expected to remain firm, as employment growth continues and the unemployment rate declines. Continued income, supported by steady economic growth and civil servant salary adjustment will support private consumption. Moreover, fiscal support in the form of cash assistance and measures announced in Budget 2026 are expected to further lift consumption, particularly among lower-income households.

The foreign workers management services market in Malaysia is expected to register steady growth driven by continued demand for foreign workers in line with factors such as the expansion of the manufacturing, services, and construction sectors; an increasingly educated local workforce; and the need for workers to take up labour-intensive jobs. The demand for foreign workers management services is also likely to be supported by Malaysia's stronger financial standing compared to source countries in Asia which attracts foreign workers into Malaysia. The recruitment and management of foreign workers continue to be essential to support the country's key economic sectors, which continue to face a shortage of local workers for low and semi-skilled roles.

Based on the abovementioned and barring unforeseen circumstances in the Group's business activities, the Board of Directors expect the Group's financial performance for the remaining of the current financial year to be satisfactory.

B4. VARIANCE OF ACTUAL PROFIT FROM PROFIT FORECAST AND PROFIT GUARANTEE

The Group did not issue any profit forecast or profit guarantee in the current financial quarter.
